**Subject:** Alexandria/Pineville Community Focus Project - Community Sustainability Initiative Webinar Dates  
**Date:** Thursday, March 26, 2015 12:18:30 PM

---

Hello all,

The EPA and LDEQ are presenting two dates for you to participate in a webinar to allow us to provide the corporate entities with background information on the Community Focus Project for Alexandria and Pineville, LA. As you may know, the EPA Administrator, Gina McCarthy has an initiative on community focus projects that is known as "Making a Visible Difference in Communities". Her goal is to get EPA to work with state, local agencies, corporate stakeholders and other federal agencies to enhance community sustainability. This is one of her cross-agency efforts working towards leveraging resources to address community issues.

For the Alexandria/Pineville project, we drafted the Community Sustainability Initiative (CSI) as a tool to create a collaborative approach to address issues. In the webinar, we will explain the full scope of the CSI. The webinar will take about one hour, but we will plan for extra time at the end to answer questions.

We are presenting the dates of **April 2 at 2 pm CDT**, and **April 8 at 10 am CDT** to have both webinars – but please understand that we are covering the same information in each webinar – the purpose of two webinars is to catch corporate parties, plant personnel, counsel, or other parties you wish to invite.

As written, the CSI names the three corporate entities as Stella-Jones, Inc, RoyOMartin/Colfax, and Kisatchie Treating. Only these entities will be participating in the webinars on April 2 and April 8. We plan to conduct the same webinar for other stakeholders at dates throughout April.

There is no "registration" for the webinar – we will use AdobeConnect and you will receive an email with a link – just click on the link, sign in as a guest and you will be able to see our slides. For audio – if your computer has the capability, the audio is tied to the link; however, we will send a dial-in number as a backup if your computer does not have that capability, or there are audio issues.

Please reply to this email to let us know if you plan to participate on **April 2** or **April 8**, then I will send you the appropriate invite/with link.

Thanks for your attention to this matter! Please feel free to email me with

any questions.
